THE GLASGOW AND WEST OF SCOTLAND TECHNICAL COLLEGE.

The College was established in 1886 by an Order in Council amalgamating several old institutions, notably Anderson's College, founded in 1796, and the first technical college in the kingdom; the College of Science and Arts, the successor of the first Mechanics' Institute; the "Young" Chair of Technical Chemistry; Allan Glen's Institution; and the Atkinson Institution. The College, as now constituted, offers complete courses of instruction of University standard in pure and applied science, and is specially designed to give the most suitable education to students intending to enter an industrial profession or trade. The complete course of study extends over at least three years, but students are at liberty to enter for any less period. The instruction in both the day and evening classes is made as practical as possible, and there are fully equipped laboratories in the departments of natural philosophy, chemistry, geology, technical chemistry, mechanics, metallurgy, mechanical engineering, and electrical engineering. The museum contains several important collections, and the library consists of about 10,000 volumes, including many valuable works. The reading room is provided with the current issues of the principal scientific and technical journals. The diploma of the College carries with it the title of "Associate of the Glasgow and West of Scotland Technical College" (A.G.T.C.), and associates are eligible for admission to the final examinations for the degree of B.Sc. in Engineering of Glasgow University after attendance upon three prescribed classes in the University for one academical year. There are many valuable bursaries and scholarships in connection with the College.

LIBRARIES & READING ROOMS.

BAILLIE'S INSTITUTION

Was founded by Mr. George Baillie, writer in Glasgow, who divested himself in his lifetime of his whole fortune (£18,000), which with its accumulations during twenty-one years from 11th November, 1863, he appointed to be applied to the erection & endowment of an institution in Glasgow, to be called "Baillie's Institution," having for its object (1st) to aid the self-culture of the operative classes by means of free public libraries; & (2nd) the instruction of their children in unsectarian schools. The former of these, however, is alone to be proceeded with, unless there is a sufficiency of funds for both. The institution was incorporated by royal charter, March 18, 1867. A free library was opened at 48 Miller street on September 29, 1887

This Company, established upwards of sixty years, **purchases** or makes **Loans** upon
REVERSIONARY INTERESTS, vested or contingent, in WELL-SECURED PROPERTY; also
LIFE INTERESTS in POSSESSION or in EXPECTATION.

LOANS UPON REVERSIONS may be obtained either at an Annual Interest, or in consideration of redeemable deferred charges, payable upon the REVERSIONS falling in.

PRESENT INCOMES are likewise advanced upon the latter principle to persons entitled to Reversionary Interests, who may thus obtain the means of support until their property falls into possession, without being called upon for any payment until that event.

Prospectuses and Forms of Proposal may be obtained from the Secretary, to whom all communications should be addressed.

PURCHASES.—The Society purchases Reversions and Remainders, whether absolute or contingent; Life Interests, whether in possession or deferred, and generally all Interests (in approved property) that depend upon the duration of human life.

LOANS.—The Society also grants Loans on the security of such Interests, either on ordinary Mortgage or by way of Reversionary Charge. The latter mode meets the convenience of borrowers who do not wish to make any payment for either principal or interest until their Reversionary Property falls into possession. The amount to which the Society will then be entitled is fixed at the outset, and does not depend on the time elapsing between the grant of the Loan and its repayment. The option of redeeming the Charge during the first three or five years can usually be combined with this form of Loan.

LIFE ANNUITIES are granted by the Society in exchange for Reversions and other Interests, and also in consideration for Reversionary Charges payable when the property falls into possession. In this way a reversioner can secure a fixed income and avoid the trouble and expense of obtaining successive loans.

The operations of the Society not only enable future expectations to be turned into present cash on fair terms, but contingent interests which may never come into possession at all are also made available for immediate uses.

The Board of Directors meet on Wednesdays at Four o clock, to consider proposals—forms for which and full information can be obtained at the Society's Offices—but immediate consideration will be given to business where dispatch is of importance. The Glenboig Company are the Sole Makers of the "GLENBOIG" and "STAR GLENBOIG" brands, which stand first among Fire Bricks, for the construction of all kinds of furnaces subjected to the highest heats and most sudden changes of temperature.

The use of these Bricks is found to be economical in districts of England where Fire Bricks are made and sold at half the price of the "Glenboig" brand; but how much more economical must they be when shipped abroad and where both qualities bear the same charge for carriage.

The "GARTCOSH" and "CUMBERNAULD" brands are sold cheaper. The Company purchased these works for the purpose of meeting the demands of buyers who require a cheaper Fire Brick of good quality, and they offer them with confidence, knowing that they are unsurpassed by any other Fire Brick made in Scotland, excepting "Glenboig" alone.

All articles manufactured by the Company bear one or other of the undernoted Trade Marks—

Purchasers are recommended to see to it that the brand purchased is really stamped on the Goods.

GAS RETORTS.—The great number of Glenboig Retorts now in use in the principal Gas Works at Home and Abroad is the best evidence of the high estimation in which this brand is held by Gas Engineers, who know the importance of using "Retorts that can be depended upon."

D. CAMERON, Proprietor.

Hawkhill Marine Hotel, Rosemarkie, Ross-shire.

THIS new Hotel, three-quarters of a mile from FORTROSE STATION, was originally the MANSION HOUSE of HAWKHILL, a finely finished building in the Italian style, to which has just been added an extensive range of Bedrooms and Sitting Rooms, while the House itself has been altered internally to meet the public requirements of a first-class Family Hotel. Situated on one of the finest parts of the northern shore of the Moray Firth, immediately opposite Fort-George, and with a full southern aspect, it presents a landscape unequalled in the North, and the facilities for Sea Bathing are unique. The district is one of the acknowledged health resorts of Scotland. In the immediate neighbourhood are the romantic glades of Fairy Glen and St. Helena, and to the east, along the sea-shore, are the rugged water-worn cliffs of Old Red Sandstone and the famous Eathie Burn, so ably described by Hugh Miller, whose birthplace is within nine miles of the Hotel. A few hundred yards distant is the far-famed and historic Peninsula of Chanonry, on which is laid out a magnificent **Golf Course,** while the ancient Burgh of Fortrose, with the ruins of the noble Cathedral, are but three-quarters of a mile away. Grand views of vastly different character are to be got from the Hill of Fortrose in rear of the Hotel, and the surrounding country abounds in pleasant walking and driving routes, while the Firth, on which there are annual Regattas, presents every facility for **Boating, Sailing** and **Fishing.**

The Hotel is provided with **Dining Saloon, Drawing Room, Billiard Room,** and **Thirty Bedrooms,** with numerous **Private Sitting Rooms.**

Every care has been taken to make the Sanitary and Heating arrangements perfect. **Hot** and **Cold Sea Water Baths** are provided for the use of visitors.

The Grounds are laid out with **Bowling Greens** and **Lawn Tennis Courts.**

The **Tariffs** are arranged on very Moderate Terms, and Families will be specially dealt with. The establishment will be under the personal management of

DONALD CAMERON, Proprietor.

Lanemark Coal Co. Limited,

NEW CUMNOCK, AYRSHIRE.

TRADE MARK.

TELEGRAPHIC ADDRESS: "LANEMARK, NEW CUMNOCK."

Can offer their superior and well-known House, Gas, and Steam Coals and House Bricks, delivered in wagons at any Railway Station in England and Scotland; or f.o.b. at AYR, TROON, ARDROSSAN, IRVINE, GREENOCK, Glasgow, Grangemouth, and Bo'ness.

— Prices, &c., on application. —

THE FOLLOWING ARE DETAILS OF ANALYSIS:—

LANEMARK CANNEL COAL.

Gas per ton of Coal	10,833 cub. ft.
Illuminating power of Gas in Standard Candles	28.40 candles.
Coke per ton of Coal	1,306.66 lbs.
Carbon in Coke	88.58 per cent.
Ash in Coke	10.80 per cent.

LANEMARK COKING GAS COAL.

Gas per ton of Coal	10,333 cub. ft.
Illuminating power of Gas in Standard Candles	18.29 candles
Coke per ton of Coal	1,340.20 lbs.
Carbon in Coke	95.43 per cent.
Ash in Coke	3.39 per cent.

— REMARKS. —

This is a first-class Coking Coal. It yields on a practical scale a large volume of Gas of good quality, together with **12 Cwts. of Coke that can hardly be surpassed in quality.** The percentage of Water in the Coal and the amount of Sulphur in the Gas are both about the average.

In obtaining these results, two tons of the Coal were distilled—without an exhauster—in three successive charges in two sets of three clay retorts each, and the Gas was collected for examination in a separate holder.

There are three wooded Islands on the Lake—the largest contains the ruins of an ancient Priory, and is rendered famous in history as the early home of Mary, Queen of Scots, and where her "Bower" or "Child Garden" is still to be seen. (This ancient relic of the unfortunate Mary is annually visited by large numbers of Tourists.) One of the lesser Islands contains the Castle of the renowned Earls of Menteith, in ruins.

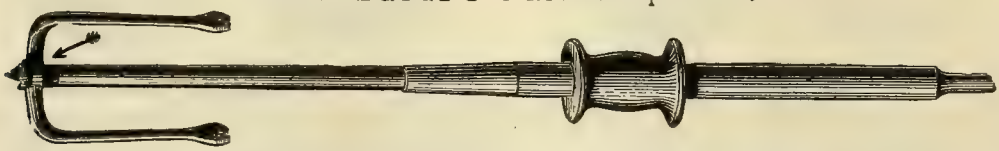
CRUCIBLE CAST STEEL SPINDLES & FLYERS

Of Every Description for Roving & Spinning Jute, Flax, Cotton, Silk, & Worsted.

Saml. Lucas's Patent Spindle.



The great improvement in this Spindle is a collar hardened and fixed under the screw, where shaded black on the sketch shown, which can be replaced; and spindle worked down at the shoulder can have this patent collar put on at a small cost. The advantage of this collar is to prevent the shoulder at the bottom of screw becoming untrue, by the flyer coming down on shoulder when working, the collar being equal in temper to the flyer, which at present is not the case.

For 1899. **Price 10s. 6d.**

KELLY'S DIRECTORIES, LIMITED, beg to announce that, having acquired the copyright of this Work, they have now published the twenty-fourth edition. The book, which has long been recognised as the most complete work of reference in connection with County, Borough and Local Government Administration, contains :—

PART I.—A Topographical and Historical Description of the Counties of England and Wales, supplemented by Electoral, Financial, Administrative, Police, and General Statistics, and a Directory to the Magistrates, Quarter Sessions, Petty Sessions, County Councils, County Boroughs, Urban District Councils, Rural District Councils, Parish Councils, Poor Law Authorities, School Boards, and Burial Boards.

PART II.—The most recent and comprehensive information respecting the City of London and the various Cities and Boroughs in England and Wales governed under the "Municipal Corporations Act," 45 & 46 Vict., c. 50 (1882), and amending Acts.

PART III.—A Government and Public Offices Guide, with other useful information respecting Prisons, Industrial and Reformatory Schools, Asylums, and Chambers of Agriculture and Commerce.

They do not at present intend to make any change in the Book, but, by careful revision and by stamping its contents with that accuracy and completeness which characterise all their other publications, they fully anticipate that they will be successful in largely increasing its utility.
